# COMING NORTH.

Embarkation of Shafter's Entire Army for Shipment to the North Will Begin Tomorrow

SANTIAGO DE CUBA, August 5. -Shafter has received orders to move his entire army north at once. The embarkation will begin tomorrow. There is great rejoicing among the

The order of embarkation will be the third and sixth regular cavalry, first regular cayalry, first U.S. cavalry, rough riders—only the private horses of officers will be taken. All the others will be turned over to military governor Wood. The tents will be left standing. Clothing and bedding subject to infection will be destroyed. General Chaffee's brigade will follow the cavalry. No yellow fover cases-will be put aboard. The volunteer regiments will embark in the following order: 1st Illinois, 1st District Columbia, 71st New York, 9th Massachusetts, 2d Massachusetts, 8th Hlinois, 334 Micigan, 34th Michigan,

in the sum of \$175.35.

New York a lend Line. When Inspector Byrnes was at the head of the detective bureau in this city, he established a system for protecting the jewelry district and Wall street, which soon became famous as the "Crooks' dead line." Detectives were on the watch during business hours to prevent any well known crook notorious confidence men and sneak thieves from a district that had proved profitable to them. After Byrnes left the force the "dead line" was not close ly guarded, and one of the first thing

tunk the management of the detectiv burean was to re-establish it. Two of McClusky's detective sergeants were standing at the corner of Broadway and John street one day last week when a all, well built man, who from his aparance might have been a prosperot roker, walked past them as if on busi

recognized, and on his promising t ave town the detectives released him. -New York Sun. What the English Navy Wants. One of the most important points i my mayy is the battle training, the edu ation in strategy and tactics, given. It s practically certain that our English fleets will have to face constant night attacks by hostile torpedo boats at the ontset of war. Yet we do not practice these things in our maneuvers, rarely even in our standing squadrons, though week after week the French Mediter

ranean and northern fleets rehearse such A distinguished British officer, Captain May, not very long ago wrote two Oran B. Caskey and Anna D. Erk, remarkable papers on tactics, concluding with an appeal to authority to establish a tactical school or college answering to the French higher naval school and similar institutions in Germany and th United States. His appeal has so far been fruitless. As a nation we are apt to despise knowledge and to believe that somehow or other "tout se debrouillera" on the day of battle. Confidence in ourselves is good and wholesome, but it should not lead us to forget the fact that science has a way of taking a terrible revenge upon those who despise her.-H. W. Wilson in Fortnightly Re-
